The Mobility Revolution

By Lukas Neckermann

Troubador Publishing Ltd Jan 2015, 2015. Taschenbuch. Book Condition: Neu. 216x140x10 mm. Neuware - 'Urban mobility is undergoing a revolution as cities face more and more pressure to get people around whilst simultaneously making cities more livable, greener and cleaner. Three key trends - zero emissions, zero accidents, and zero ownership - are playing a significant role in starting to redefine how we live, work, and move within our cities.' Isabel Dedring London's Deputy Mayor for Transport 'In his fascinating tour-de-force of the mobility revolution, Lukas Neckermann takes us to the other side of current transportation systems. He paints a compelling picture where we are only a few years away from a disruptive turn in the automobile industry. This transformation, he assures us, has been well paved with mounting evidence that our current way of dealing with transportation is doomed in the light of ecological, social and economic imperatives. According to him, the new world of physical mobility is a thrilling combination of three zeroes - emissions, accidents, ownership. Neckermann's book is the dynamite to clear our minds in order to see how the future takes shape in our key industries and in our ever more nomadic ways of life.'...

Reviews

Good electronic book and valuable one. It generally is not going to charge an excessive amount of. Its been developed in an remarkably straightforward way and is particularly simply following i finished reading this ebook through which really transformed me, change the way i think.

-- **Mr. Domenic Eichmann**

Completely essential read book. I could possibly comprehended every little thing using this written e book. You wont sense monotony at at any moment of your own time (that's what catalogues are for relating to if you ask me).
