

Monthly notices of the Royal Astronomical Society Volume . 37

By Royal Astronomical Society

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 118 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1876 edition. Excerpt: . . . 7. That the dusky ring is not transparent throughout, contrary to all the observations made hitherto; and that it grows more dense as it recedes from the planet; so that, at about the middle-of its width, the limb of the planet ceases entirely to be seen through it. 8. And, finally, that the matter composing the dusky ring is agglomerated here and there into small masses, which almost totally prevent the light of the planet from reaching the eye of the observer. Astronomers are much indebted to Mr. Marth for the continuation of his ephemerides of the satellites of Saturn. No observations have, however, been communicated to the Society during the year. American Journal of Science and Arts, No. 66, xi. , June 1876. Observations of Jupiters Satellites at Adelaide. Mr. Todd has employed his new 8-inch eqnatoreal, by Cooke, mounted in December 1874, in...
