2015. Hardcover. Book Condition: New. 113 About the book:- Botany is the study of plants, and they provide an essential foundation for life on earth, the food we eat and the beauty of the natural environment botany as a result is considered to be an extremely important science! Botany is no longer confined to the study of how and why plants survive in the way they do. With the advancement of technology, the study of botany means the study of how plants are used in biotechnology, the significant part that they play in ecosystems and of course, how they can continue to provide food, medicines and even fuel to an ever-expanding global population. An holistic approach to understand the general characters of each genera in the syllabus mainly of lower cryptograms is done with utmost care. This book is written in simple language and its approach has been student oriented. It is profusely illustrated with photo-micrographs and line diagrams which serves the entire purpose of practical needs and requirements of under-graduate students of all universities. Lastly, I shall welcome constructive suggestions from readers. About The Author:- Poonam Sethi, professor in botany (PBPBT) Guru Nanak College, Chennai, passed Msc. (1999) in first division with University Rank (University of Madras) and was also awarded the best outstanding student of the year. She did Ph. D in Psychology and has to her credit a compound from seaweeds against Human Cocksackie virus. She has published over 15 research papers in reputed Indian and foreign research journals. Has experience of teaching Botany to the under graduate student and organised a workshop on screening and control of viral diseases. Endowed with passion for scientific writings has written several books for various competitive exams. This Manual has been written in a student friendly manner and presented in a...
