SciTech Labs was handsomely commissioned by the United States Military to design a revolutionary serum that would create the ultimate soldier. If successful, the soldier would have an increase in endurance, strength, awareness and overall speed. They would become the true super soldier. Thats if everything went according to plan. SciTech put its best scientists on the project and gave them a time limit to complete the job or else. With the pressure on and the stakes high, Vincent Masterson and his team put everything they had into the project. Everything was looking hopeful until an experiment went horribly wrong. The scientists mutated their specimens DNA, turning it into something monstrous. Now, life as we know it will never be the same. As it stands, the only thing that can save the human race is one of the two things they should be running from. Can the human race survive being caught in a bloody war between two vicious predators This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
