Booq Publishing February 2016, 2016. Hardcover. Book Condition: New. The interior design of homes can be looked at as a reflection of contemporary lifestyle and of cultural changes in our society. Designing residential spaces is a complex undertaking on the part of the architect and interior designer, whose main goal is to reconcile practical requirements with the functional and aesthetic needs of their clients. This volume is a richly illustrated exploration of residential interior design room by room: entry halls and hallways, kitchens dining rooms, living rooms, bedrooms, bathrooms, home offices, and outdoor spaces. Exploring the ultimate combination of comfort, style, and aesthetic value, The Interior Book presents the very best of modern interiors from a selection of spectacular homes around the world. It showcases architectural features as well as stunning interior design, revealing how furniture, lighting, and decor can combine with options such as ceiling-to-floor windows, exposed beams, and dramatic building materials to create interior spaces just as stunning as the exteriors of modern homes. Logical chapters divide the sections into entry halls and vestibules, living rooms, dining rooms, kitchens, open plan living areas, home offices, bedrooms, and bathrooms, all of which are captured with high-quality photographs that display full-room perspectives as well as the small details that transform an interior into an experience.
