# Distributed Applications and Interoperable Systems

Filesize: 3.68 MB

Reviews

This publication will be worth purchasing. This is for all those who statte there was not a worthy of reading through. I discovered this publication from my dad and i suggested this pdf to find out.

DISTRIBUTED APPLICATIONS AND INTEROPERABLE SYSTEMS

To read **Distributed Applications and Interoperable Systems** PDF, remember to click the button below and download the file or get access to additional information that are related to DISTRIBUTED APPLICATIONS AND INTEROPERABLE SYSTEMS book.

Springer-Verlag Gmbh Jun 2010, 2010. Taschenbuch. Book Condition: Neu. 0x0x cm. Neuware - In2010theInternationalFederatedConferenceonDistributedComputingTe- niques (DisCoTec) tookplacein Amsterdam,during June 7-9. It washosted and organized by the Centrum voor Wiskunde & Informatica. DisCoTec conferences jointly cover the complete spectrum of distributed computing subjects ranging from theoretical foundations to formal speci cation techniques to practical considerations. The 12th International Conference on Coordination Models and Languages (Coordination) focused on the design and implementation of models that allow compositional construction of large-scale concurrent and distributed systems, including both practical and foundational models, run-time systems, and related veri cation and analysis techniques. The 10th IFIP International Conference on Distributed Applications and Interop- able Systems in particular elicited contributions on architectures, models, te- nologies and platforms for large-scale and complex distributed applications and servicesthatarerelatedtothelatesttrendstowardsbridgingthephysical/virtual worlds based on exible and versatile service architectures and platforms. The 12th Formal Methods for Open Object-Based Distributed Systems and 30th FormalTechniques for NetworkedandDistributed Systems together emphasized distributed computing models and formal speci cation, testing and veri cation methods. Each of the three days of the federated event began with a plenary speaker nominated by one of the conferences. On the rst day Joe Armstrong (Eri- son Telecom AB) gave a keynote speech on Erlang-style concurrency, and on the second day Gerard Holzmann (Jet Propulsion Laboratory, USA) discussed the question Formal Software Veri cation: How Close Are We . On the third and last day Joost Roelands (Director of Development Netlog) presented the problem area of distributed social data. 243 pp. Englisch.
